

Enforcement Actions

August 22, 2013

According to Neb. Rev. Stat. §§ 76-2239 and 76-2240, the Nebraska Real Property Appraiser Board may revoke or suspend the credential or otherwise discipline a credential holder or deny any application for any of the acts or omissions set forth in section 76-2238. Upon receipt of information indicating that a credential holder may have violated any provision of the act, the Board shall make an investigation of the facts to determine whether or not there is evidence of a violation. If a formal complaint is filed, the matter may proceed to formal hearing, determination and order by the Board. The Board may enter into a consent agreement instead of a proceeding to a formal determination of violation. A formal complaint for which a consent agreement or formal determination of violation is entered is reported to the Appraisal Subcommittee of the Federal Financial Institutions Examining Council, and is reported here in a format as adopted by the Board. Violation of the act or the rules and regulations during a period of probation shall cause immediate execution of a suspension penalty.

The Nebraska Real Property Appraiser Board adopted a motion for format for publishing of enforcements. The following motion was adopted February 21, 2007. The motion reads as follows: "All disciplinary actions will be published . . . using the agreed upon format of case number, name, items of agreement or order and include any fees paid by the respondent with the effective date of the disciplinary action as of January 1, 2006.
